### NOTES TO THE FINANCIAL STATEMENTS

### 1. General information

Oryx Petroleum Corporation Limited (the "Company" or "OPCL") is a public company incorporated in Canada under the Canada Business Corporation Act and is the holding company for the Oryx Petroleum group of companies (together the "Group" or "Oryx Petroleum"). The address of the registered office of OPCL is 3400 First Canadian Centre 350, 7<sup>th</sup> Avenue Southwest, Calgary, Alberta, Canada T2J 2M2. The Group's indirect controlling shareholder is The Addax and Oryx Group PLC ("AOG") (incorporated in Malta). The majority of AOG's outstanding shares are owned by Samsufi Trust, an irrevocable discretionary charitable trust created at the suggestion of Jean Claude Gandur. Mr. Gandur is not one of the beneficiaries of the Samsufi Trust. The Group's principal activities are to acquire and develop exploration and production assets in order to produce hydrocarbons and to increase oil and gas reserves.

The consolidated financial statements (the "Financial Statements") were authorised for issue by the Board of Directors on May 8, 2018.

# 2. Summary of significant accounting policies

### a. Basis of preparation

The Company's Financial Statements for the three months ended March 31, 2018 have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim financial reporting". The Financial Statements should be read in conjunction with Oryx Petroleum's annual financial statements for the year ended December 31, 2017, which have been prepared in accordance with International Financial Reporting Standards (IFRS). Accounting policies included in the annual financial statements for the year ended December 31, 2017 are applicable to these Financial Statements.

The Financial Statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities (including derivative instruments) at fair value through profit and loss.

The preparation of financial statements in conformity with IFRS requires the use of critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Financial Statements are disclosed in the annual financial statements for the year ended December 31, 2017.

The Financial Statements are presented in the US Dollar currency (USD), which is both the presentational and functional currency of the Company.

### b. Going concern

These Financial Statements have been prepared on a going concern basis which contemplates the realisation of assets and the satisfaction of liabilities and commitments in the normal course of business for the foreseeable future. The Group has met its day to day working capital requirements, and funded its capital and operating expenditures through funding received from the proceeds of share issuances (note 15) and its share of oil sales revenues from the Hawler License Area.

Management expects that the cash resources on hand as at March 31, 2018, proceeds from the sale of assets held for disposal (note 11), and future cash receipts from sales of its share of oil production from the Hawler license area will be sufficient to fund the Group's capital and operating expenditures and to meet obligations as they fall due in the 15 months following March 31, 2018.

The Group's ability to continue as a going concern in accordance with management's estimates and forecasts is primarily dependent on realisation of forecasted revenues during the 15 months ending on June 30, 2019 and beyond, and on the Group's ability to restructure cash outflows related to Borrowings (notes 13) which are due during the second half of 2019. These estimates are subject to uncertainties that may cast significant doubt on the Group's ability to continue as a going concern.

Effective for appual

Unaudited Condensed Consolidated Interim Financial Statements For the three months ended March 31, 2018 and 2017

# 2. Summary of significant accounting policies (continued)

### b. Going concern (continued)

In preparing forecasts supporting the going concern assumption, management has applied the following significant judgments and assumptions:

- i) Oil sales volume assumptions are based on historical production volumes adjusted to recognise the impact of production increases expected to result from planned drilling activities. Crude oil price assumptions are based on Brent forward contract prices adjusted for transportation costs and quality differentials. Management's forecast assumes net cash receipts from sales of its share of oil production from the Hawler License Area of \$72.7 million during the 15 months ending June 30, 2019.
- ii) The timing and extent of forecast capital and operating expenditures is based on the Group's 2018 reforecast budget adjusted to exclude discretionary activities and related expenditures, and on management's estimate of expenditures expected to be incurred beyond 2018. The Group retains a high degree of control and flexibility over both the extent and timing of expenditure under its future capital investment program.
- iii) Management has developed specific plans to address longer term corporate funding requirements which are under discussion and consideration by parties including the Lender (note 13). Consequent on these discussions, management has assumed that Borrowings maturing in July 2019 will be rescheduled or restructured, such that no related cash outflows occur during 2019.

Should the Group be unable to meet its obligations as they fall due and to fund its anticipated capital investments and operating expenditures, the preparation of these Financial Statements on a going concern basis may not be appropriate. The Financial Statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. Such adjustments may be material.

The directors have considered the judgments, estimates, and related uncertainties discussed above and have concluded that there is a reasonable expectation that the Group will have adequate resources to continue operations for the foreseeable future and, therefore, continue to adopt the going concern basis in preparing these Financial Statements.

### c. New and amended standards adopted by the Group

Effective January 1, 2018, the Group adopted the following IFRS as issued or amended by the IASB:

Amendments to Standards	periods beginning on or after
IFRS 9 – Financial Instruments: classification and measurement	January 1, 2018
IFRS 15 – Revenue from contracts with customers	January 1, 2018
Amendments to IFRS 2 - Classification and measurement of share based pay	ment
transactions	January 1, 2018
Annual improvements - 2014 – 2016 cycle	January 1, 2018

The above amended standards have not had a material impact on the Group's Financial Statements.

### d. New and amended standards issued but not yet effective

At the date of authorisation of these Financial Statements, the following standards applicable to the Group were issued but not yet effective:

	Effective for annual
New and Amended Standards	periods beginning on or after
IFRS 16 – Leases	January 1, 2019

Management has reviewed the impact of the new and amended standards listed above, and expects that the adoption of these standards and amendments will not have a material impact on the Group's Financial Statements.

Unaudited Condensed Consolidated Interim Financial Statements For the three months ended March 31, 2018 and 2017

# 3. Financial risk management

The financial risk management disclosure contained in Oryx Petroleum's annual financial statements for the year ended December 31, 2017 is applicable to these Financial Statements. There were no financial instruments acquired by the Group during the three months ended March 31, 2018.

### 4. Joint arrangements

The Group has entered into Joint arrangements to facilitate the development and production of oil and gas. No new joint arrangements have been entered into during the three months ended March 31, 2018. As at March 31, 2018, the Company was involved in the following joint arrangements:

License Area	Classification	Location	Participating interest <sup>(1)</sup>
Hawler	Joint operation	Iraq – Kurdistan Region	65%
AGC <sup>(2)</sup> Central	Joint operation	Senegal and Guinea Bissau	85%
Haute Mer A	Joint operation	Congo (Brazzaville)	20%
Haute Mer B <sup>(3)</sup>	Joint operation	Congo (Brazzaville)	30%

- (1) Participating interest is the Group's current interest in the applicable license area. Participating interest differs from working interest which reflects the impact of unexercised back-in rights or options.
- (2) Agence de Gestion et de Coopération entre le Sénégal et la Guinée Bissau ("AGC")
- (3) On April 23, 2018, the Group entered into a farmout agreement providing for the transfer of the Group's 30% participating interest in the Haute Mer B license to the operator of the license. The transaction is expected to close during the second quarter of 2018 (note 11).

# 5. Intangible assets (continued)

- (1) Credits to additions relate to reductions in estimates of expenditures incurred in prior periods.
- (2) At September 30, 2015, management determined that the limited exploration and evaluation activities now planned for the OML 141 license area constituted an indicator of impairment. Management concluded that given the fact that cash flows attributable to the asset in its current condition could not be established, the recoverable amount of this asset calculated using the value-in-use methodology was Nil. The Group consequently recorded an impairment provision of \$55.6 million. During the first quarter of 2017, the Group recorded a credit to additions and equivalent impairment reversal of \$1.5 million due to revisions in costs previously estimated. As at March 31, 2018, the carrying value of the OML 141 CGU was Nil (December 31, 2017 Nil).
- (3) At December 31, 2016, management determined that the limited exploration and evaluation activities planned for the Haute Mer B license area during the foreseeable future constituted an indicator of impairment. Management concluded that given the fact that cash flows attributable to the assets in their current condition could not be established, the recoverable amount of this asset calculated using the value-in-use methodology was Nil. The Group consequently recorded an impairment charge of \$16.3 million related to the Haute Mer B license area. During the first quarter of 2017, the Group recorded an addition and equivalent impairment expense of \$0.1 million relating to the Congo Haute Mer B license area due to revisions in costs previously estimated. Subsequent to December 31, 2017, the Group entered into an agreement to dispose of its interest in the Haute Mer B License Area. Management concluded that the agreement constituted an indication that the net realisable value of the Group's interest in the Haute Mer B License Area as at December 31, 2017 was greater than Nil as previously estimated and consequently recorded an \$8.0 million net impairment reversal. As at March 31, 2018, the carrying value of the Congo Haute Mer B license, classified as an asset held for disposal, was \$13.3 million (December 31, 2017: \$8.0 million).

The carrying amounts of intangible E&E assets relate to:

	March 31	December 31	
\$000s	2018	2017	
Middle East	48,424	48,425	
West Africa	44,236	43,755	
	92,660	92,180	

The carrying amounts for E&E assets represent costs incurred on exploration projects. For the purpose of impairment assessments and testing, E&E assets are aggregated in cash-generating units ("CGU"). Determination of what constitutes a CGU is subject to management judgments and the circumstances. For the purposes of impairment assessments and testing, management has determined that each license area constitutes a CGU. The carrying amounts remain capitalised, provided there are no indications of impairment, until the process to determine whether commercial reserves are established is complete. At that stage the relevant costs are either transferred to PP&E or written-off to the statement of profit and loss as an impairment of oil and gas assets.

During the fourth quarter of 2017, the Group executed an amendment to the AGC Central PSC ("AGC Central Amendment"). Under the terms of the AGC Central Amendment, recoverable costs incurred under the AGC Shallow PSC are recoverable from potential sales of oil produced and sold from the AGC Central license area. Consequently, the Group has transferred all costs previously associated with the AGC Shallow CGU to the AGC Central GCU. As a result of the transfer, the carrying value of the AGC Shallow license was reduced to Nil. The Group concurrently relinquished its interest in the AGC Shallow License Area.

Management has exercised significant judgment in determining that for the Hawler – Ain al Safra, and AGC Central CGUs, there are no substantive indicators suggesting that the carrying amounts of exploration and evaluation assets exceed their recoverable amounts. Most significantly, assessments regarding the presence of impairment indicators include complex judgments and estimates relating to i) management's current and future capital allocation priorities, and ii) the Group's ability to finance its commitments within the time limitations imposed by the agreements governing the Group's activities in each of the related license areas / CGUs.

### 6. Property, plant and equipment

The Group's principal property, plant and equipment comprises its Oil & Gas assets in the Hawler license area in the Kurdish region of Iraq. No assets have been pledged as security.

The carrying amounts for Oil & Gas assets are subject to impairment assessment and testing in accordance with IAS 36.

For the purpose of impairment assessments and testing, Oil & Gas assets are aggregated in CGUs. Determination of what constitutes a CGU is subject to management judgments and the circumstances. For the purposes of impairment assessments and testing of Oil & Gas assets, management has determined that the Oil & Gas assets in the Hawler license area outside of the Ain al Safra area constitute the group's single CGU which contains property, plant and equipment.

Management has determined that as at March 31, 2018, there were no new substantive indicators suggesting that the carrying amount of Hawler license area Oil and Gas assets exceeds its recoverable amount nor were there indicators suggesting that the previously recognised impairment losses no longer exist or may have decreased.

<sup>(2)</sup> During 2013, the Group entered into an agreement to construct, lease, and purchase a production facility for the Hawler license area. The related facilities were commissioned in September 2015. During the first quarter of 2017, the Group settled the finance lease obligation and assumed ownership of the asset. The facilities previously classified as Finance Lease Assets were concurrently reclassified to Oil & Gas Assets.

<sup>(3)</sup> As at December 31, 2017, the Group recorded a \$27.7 million impairment charge relating to the Hawler License Area. The impairment charge represents the difference between the recoverable amount of the Hawler license area CGU and its carrying amount prior to impairment. The carrying value of the Hawler License Area CGU at March 31, 2018 is \$586.1 million (December 31, 2017: \$582.6 million)

### 11. Assets held for disposal

On April 23, 2018, the Group entered into a farmout agreement providing for the transfer of the Group's 30% participating interest in the Haute Mer B exploration license offshore Congo (Brazzaville) ("HMB License") to a subsidiary of Total S.A. (the "Buyer") (the "Farmout Agreement"). Subject to closing, the Group's interest in the HMB License will be transferred for cash consideration of \$8 million, payable at closing. The transfer will be deemed to be made with effect from January 1, 2018. As a result, the Buyer has agreed to reimburse the Group for costs incurred by it in relation to HMB License between January 1, 2018 and the date of the Farmout Agreement and to carry the Group's share of costs from the date of the Farmout Agreement to the closing of the transaction. This is expected to result in a further payment to the Group, at closing, of approximately \$5.3 million. Subject to completion of customary due diligence and closing conditions, the transaction is expected to close during the second quarter of 2018. The license interest is presented as an asset held for disposal as at March 31, 2018.

### 13. Borrowings

On March 11, 2015, the Group entered into a committed and unsecured term loan facility agreement (the "Loan Facility") with a subsidiary of its indirect controlling shareholder The Addax and Oryx Group PLC (the "Lender"). The \$100 million Loan Facility has been fully drawn and had an initial maturity of March 10, 2018 (the "Maturity Date"). On March 18, 2016, the Group extinguished \$8.2 million of the principal and accrued interest under the Loan Facility, in consideration for 20,581,247 common shares of the Company. On October 24, 2016, OPCL issued 23,032,871 common shares of the Company to the Lender as consideration to extinguish a further \$9.1 million of principal and accrued interest under the Loan Facility.

On April 28, 2017, the Loan Facility was amended to extend the Maturity Date from March 10, 2018 to July 1, 2019 and to amend interest payment terms (the "Loan Amendment"). Under the terms of the Loan Amendment, interest, which up to and including May 11, 2017 accrued at an annual compound rate of 10.5%, and principal amounts owing to the Lender up to and including May 11, 2017 (the "Loan Amount") are payable at the Maturity Date or earlier, at the option of the borrower. Interest accrued on the Loan Amount after May 11, 2017 is determined on each of November 11, 2017, May 11, 2018, November 11, 2018, and July 1, 2019 (each, an "Interest Calculation Date") and paid to the Lender by way of issuance of common shares with the number of common shares issuable to be determined using the issue price per share equal to the volume weighted average trading price for the five trading days immediately preceding the Interest Calculation Date.

On June 20, 2017, OPCL issued 131,933,226 common shares of the Company to a subsidiary of AOG for consideration of \$44.1 million. \$24.1 million of the proceeds from the issue and sale of common shares has been applied to extinguish principal and accrued interest under the Loan Facility (note 15).

On December 8, 2017, OPCL issued 24,481,049 common shares of the Company to a subsidiary of AOG for consideration of \$4.0 million, which has been applied to extinguish accrued interest under the Loan Facility (note 15).

Borrowings are presented as a non-current liability, net of warrant issue and other transaction costs. The carrying value of the loan at March 31, 2018, which has been measured at amortised cost using the effective interest rate method, approximates its fair value and its components are summarised in the table below:

# 14. Decommissioning obligation

The Group has obligations to decommission its oil and gas assets upon cessation of operations.

In calculating the value of the Group's future decommissioning obligation at March 31, 2018, management has made significant assumptions and estimates based on an assessment of the current economic environment and factors specific to the assets to be decommissioned. These estimates are reviewed annually and when circumstances suggest that such revisions are required. Actual decommissioning costs will ultimately depend upon future market prices for the necessary decommissioning works required which will reflect market conditions at the relevant time. Furthermore, the timing of decommissioning is likely to depend on when the fields cease to produce at economically viable rates. This in turn will depend upon future oil and gas prices, which are inherently uncertain. The assumed inflation rates used in the calculation to determine the carrying value of the decommissioning obligation were updated on June 30, 2017 to rates ranging from 1.4% to 4.5% (December 31, 2017 – 1.4% to 4.5%). The discount rates used at March 31, 2018 range from 4.1% to 7.2% (December 31, 2017 – 4.1% to 7.2%). Decommissioning obligations are anticipated to be incurred in 2038.

The estimated net present value of the decommissioning obligation at March 31, 2018 is \$15.2 million (December 31, 2017 - \$14.6 million) based on the Group's working interest undiscounted liability of \$35.2 million (December 31, 2017 - \$34.3 million).

### 2017 share capital transactions

On March 15, 2017, OPCL issued 15,500,000 common shares of the Company to settle a current trade accounts payable of \$4.8 million.

On June 20, 2017, OPCL issued 131,933,226 common shares of the Company to a subsidiary of AOG for consideration of \$44.1 million. \$24.1 million of the proceeds from the issue and sale of common shares has been applied to extinguish principal and accrued interest under the Loan Facility described in note 13. On June 20, 2017, the Company also issued 29,916,831 common shares of the Company to Zeg Oil and Gas Ltd ("Zeg Oil and Gas") for consideration of \$10.0 million.

On December 8, 2017, the Group extinguished \$4.0 million of accrued interest under the Loan Facility described in note 13, in consideration for 24,481,049 common shares of the Company.

During the year ended December 31, 2017, the Group issued 2,457,892 shares to employees under the Group's LTIP. An additional 411,828 shares were issued to Directors of the Company as remuneration.

### b. Warrants

On March 11, 2015, in accordance with the Loan Facility described in note 13, the Group issued warrants to acquire one million common shares of the Company to an affiliate of the Lender. The exercise price of the warrants is USD \$3.29 per common share. The warrants expired on March 10, 2018.

On May 11, 2015, also in accordance with the Loan Facility described in note 13, the Group issued warrants to acquire seven million common shares of the Company to an affiliate of the Lender. The exercise price of the warrants is USD \$3.56 per common share. The expiry date of the issued warrants is May 11, 2018.

On December 15, 2015, also in accordance with the Loan Facility described in note 13, the Group issued warrants to acquire four million common shares of the Company to an affiliate of the Lender. The exercise price of the warrants is USD \$0.50 per common share. The expiry date of the issued warrants is December 15, 2018.

The following table summarises warrants outstanding and exercisable at March 31, 2018:

### 23. Commitments

### (a) Contractual obligations

The Group has entered into agreements which contain provisions for the following spending commitments:

	March 31	December 31
\$000s	2018	2017
No later than one year	6,874	6,143
One to five years	38,936	38,546
Greater than five years	16,100	16,100
	61,910	60,789

The commitments noted above reflect the Group's execution of currently expected and contracted exploration and development activities. Expenditure commitments may be subject to change and may be reduced by selective relinquishments of acreage and/or licenses or by curtailing the execution of activity under existing supplier contracts. Determining expenditure commitments requires the use of estimates and judgments primarily related to expectations that budgeted activities will be executed.

# (b) Operating lease commitments – Group company as lessee

The Group leases buildings and equipment under non-cancellable operating lease agreements with varying terms and renewal rights. The corresponding lease expenditure charged to the statement of profit and loss during the three months ended March 31, 2018 was \$0.1 million (2017 - \$0.1 million).

The future aggregate minimum lease payments under non-cancellable operating leases are as follows:

	March 31	December 31
\$000s	2018	2017
No later than one year	174	243
One to five years	36	46
·	210	289

### 24. Contingent liabilities

In the normal course of operations, the Company may be subject to litigation and claims. In management's estimation, no such litigation or claim, individually or in aggregate, would result in a liability that would have a significant adverse effect on the financial position or results of operations of the Company.

During 2011, the Group acquired OP Hawler Kurdistan Limited. The acquisition terms included additional consideration which is contingent upon the outcome of exploration activities. The Group has recorded the contingent liability at management's estimate of fair value, which as at March 31, 2018, amounts to \$66.3 million (December 31, 2017 - \$64.8 million) as discussed in note 12. For the specific purpose of estimating the fair value of the contingent liability, management's estimate assumes that the Group will achieve a second declaration of commercial discovery in the Hawler license area, that the contingent consideration will consequently become payable, and that the timing and amount of resulting cash outflows will be consistent with the terms outlined in agreements with the vendor.
